

Spotlight Kid

Departure

Born out of frustration, born out of back luck or just fate? **Chris Davis** conceived **Spotlight Kid** in late 2005. His former band **Six By Seven** had reached a cross roads, they had done what they had set out to do and now nobody cared anymore. It was time to take a new route and go it alone, well almost...

Having already written an arsenal of new songs, Chris Davis asked long time friend and singer **Katty Heath** if she would like to join the ride and see what happens. Having fulfilled her commitments with her former band **Bent**, she agreed and Spotlight Kid began.

Six months and eleven songs later and the finished album has landed. 46 minutes of beautiful epic music that fills your soul with fire, shifting through the hazy drone rock of **Spacemen 3** and the velvets through to the uplifting beauty of **Lush**, **MBV** and **Swervedriver**, cutting a glance in the right direction to the great moments of shoegaze, krautrock and 90's psychedelia.

Former **Six By Seven** members **Sam Hempton** and **James Flower** also make a welcome appearance on the album, amongst other friends who chipped in. At the core though is **Chris Davis**, who always had a clear image of how the record should turn out...

Quick picks for tired hacks....

Track 3 **Machines**
Track 5 **Seefeel**

Spotlight Kid will be playing shows in the UK throughout the Summer and Autumn, please check websites for details.
